EAMTM

strength, status, choice, confidence

The European Association of Machine Tool Merchants (EAMTM) is a major international body representing machine tool dealers. Its members come from 25 countries, world-wide, meeting and trading on the basis of mutual trust.

Founded in the UK in 1940 as a British Association with 10 member companies, it reached 100 member companies in 1950. It then became the Association of European Machine Tool Merchants in 1973, with 175 member companies, and was subsequently renamed in 1990 and became the European Association of Machine Tool Merchants. Membership now incorporates more than 200 companies throughout the world.

For members, the EAMTM symbol means STRENGTH and STATUS, because membership of the EAMTM provides contact with 200 companies world-wide. It shows their acceptance by fellow members and public and private bodies as a reputable and reliable dealer.

The EAMTM keeps members informed, protected and advised, providing services beyond the reach of many small dealers (see box item for a list of membership benefits).

For the customer, the EAMTM symbol means CHOICE, as the combined membership has thousands of new and used machines available in stock throughout the world. The details of machines currently on offer can be viewed on the Association's website (www.eamtm.co.uk).

The EAMTM symbol also means CONFIDENCE, because of Members'

obligation to comply with the Associations Code of Ethics, instituted originally in 1940 and which continues to be paramount to the Association's success (available to view at the website).

The Association's website has undergone major changes in the recent past, which makes it even more useful. Completely relaunched, it now features, for example, 'Member Locations', which lists the location and address details on a map for all members.

This allows both other members and potential customers to easily find their local EAMTM member, simply by means of a visual search on a UK map, or by getting more area specific details by using the search button.

The Association website is the best, most important and up-to-date website for the machine tool buyer. It supports 11 languages, including Russian and Turkish, and is continually updated to serve the machine tool market in this very competitive and continually changing business.

EAMTM management update

The Association is headed by the President, Hans Jurgen Geiger, with the head office in Brussels. Branches to assist members are in the United Kingdom, France, Germany, Benelux and Scandinavia.

The British Branch is headed by its Chairman Robert Cockerill, Vice Chairman Keith Senior and Treasurer Steven Mooney supported by Board Members Steven Elliott, John Marshall, Dan Monaghan,

The Chairman of the British Branch of the EAMTM, membership to the Association and wishes all

Robert Cockerill, welcomes applications for members a prosperous 2011.

Advantages of being an EAMTM Member

Commercial trading between the 200 members from 25 different countries

Opens a wide international and national market place among the members

Safe payments for commercial exchanges for the members

Wanted & For Sale space available online

Free access to the EAMTM website to send e-mails to the 200 machine tool merchants with a simple click

Publish their machine stock on the web site

Being members of the EAMTM gives the machine tool dealers distinct advantages. It adds prestige to your company. Clients will recognise EAMTM members. Your company will be part of the international market scene as networking and making the right contact is vital to the machine tool business.

Networking and meeting members on a national level is conducted through area meetings, Chairman's conference and social functions. On an international level an Annual Conference is held including a popular merchants market – for 2011 the venue is Budapest on 29th June – 2nd July. The EAMTM also promotes various machine tool exhibitions.

Benefits for customers

Interested in buying used machine tools?

If you are planning to buy used machine tools, you are likely to contact one or more machine tool dealers from the Association. They are able to supply machines from stock, or find the right machine through the network

of our Association.

Look out for the EAMTM logo, which is displayed on our member's advertisements, website and letter heading, giving you the guarantee that you can undertake business with confidence. All our members comply with the Association's Code of Ethics.

Michael Riley and Brian Henshall, and ex-officio members Barney Ord and Nigel Bongers.

The British Branch has its own website which is in the process of being further developed with an aim to assist members and the machine tool trade. Area meetings and an annual British Branch conference ensures that members have the opportunity to meet on more relaxed level, exchange ideas and do business.

EAMTM

Code of Ethics

The Code of Ethics was instituted originally in 1940 and continues to be paramount to the Association's success:

- 1. To honour completely and sincerely all contracts and agreements in which they engage both in buying and selling, particularly where terms of payment have been mutually agreed.*
- 2. To describe and represent the machines they offer to the best of their ability as to: Serial and model numbers/Condition/Specification and accessories.*
- 3. When offering machinery to which they do not have clear title they will endeavour to establish and advise the prospective buyer of any relevant circumstances, which could affect the sale.*
- 4. When machines are sold with a guarantee and are proved to be defective (other than through the buyer's own actions) they will use their utmost endeavours to rectify the complaint.*
- 5. To honour every option and or first refusal both as to price and date*
- 6. To accept that in the event of a member knowingly and deliberately violating or committing a breach of the above Code (of which the Association's Council shall be sole judge) then, should Council so resolve, he will be suspended as a Member. The general Meeting can declare the expulsion of a member.*
- 7. Members accept that there may be instances not covered by the above code, where the Association must consider whether a Member has brought its good name into disrepute by failure to honour the receipt of mutual trust implied by Membership; and that the Association's Council must then determine appropriate remedies including specific warning, or ultimately, expulsion from Membership, in order both to correct the instance and to prevent its recurrence.*

British Branch

Join the EAMTM

You too could benefit

Being a member of the EAMTM adds prestige to your company.

Clients will recognise EAMTM members.

Your Company will be part of an international market.

Delivering networking opportunities.

Helping you make vital business contacts.

Providing a bridge between the national and international business world.

Your company will be included in the Association Directory.

Access to the full members service which are available online.

Competitive rates available for exhibition attendance and advertising.

Opportunity to attend annual Association Conferences across Europe.

Plus British Branch Annual Conferences held at various locations in the UK

Meet other members face-to-face, cement friendships and seal deals.

Why join the EAMTM as a Dealer?

Being members of the EAMTM gives the machine tool dealers distinct advantages.

It adds prestige to your company. Clients will recognise EAMTM members.

Your company will be part of the international market scene as networking and making the right contact is vital to the machine tool business.

DUGARD.com

Since 1939

DUGARD ECO Lathes

Range Features

- 210mm cutting diameter
- 460mm cutting length
- 30° slant bed
- 65mm bar capacity
- 215mm X travel
- 520 Z travel
- 4000/5000/6000rpm speeds
- 12 station turret

Dugard ECO 65MC

A new Dugard range of high quality, value for money CNC Lathes and VMCs

DUGARD 1000Y PLUS

Probably the best VMC on the market

- New high rigidity spindle
- Y axis increased to 610mm
- Massive frame - 7000kg
- Smallest footprint in it's class
- 24 station twin arm ATC
- "Big Plus" tooling system
- 10,000rpm spindle with refrigeration
- Fanuc, Siemens 828D and Heidenhain control options

Dugard 1000Y Plus - demo video online now

DUGARD 700L Heavy Duty Slant Bed Lathe

- 24" chuck - 165mm bar capacity
- Swing 1016mm
- Programmable tailstock
- 12 station turret
- Between centres 3,000mm (2,000 / 4,000mm)
- Massive torque - 45/60kW (4 speed gearbox)

Dugard 700L - demo video online now

FAIRFIELD INDUSTRIES LTD

ONLINE AUCTION

The lots in this auction are located at Erskine Square, Hillington Industrial Estate, Glasgow, G52 4PE United Kingdom. Fairfield Industries Ltd are instructed to offer for sale the following equipment formerly used in the business of William Abernethy. Viewing by appointment only.

Webster and Bennett 60 inch DH Fixed Rail Vertical Boring Machine, Serial No.3921-1, table size 65 inch diameter, maximum swing 72 inch diameter, height under cross slide 38.75 inches, table speeds 3.8 – 83 rpm, main motor 20 HP, complete with set of 4 table jaws and quantity of turret tool holders. Approx. dimensions 3200mm x 2700mm x 2900mm high.

VDF (Oerlikon Boehringer) type DUE800 straight bed centre lathe, 800mm x 2400mm. Serial No.04045101-807 (1984) Swing over bed / saddle 800 / 520mm diameter, distance between centres 2,400mm, hollow spindle 130mm diameter, spindle speeds 7.1 – 1400 rpm, 4 jaw chuck 630mm diameter, 3 point fixed steady, 4 way tool post, dual metric / imperial dials, coolant pump and fittings. Approx. dimensions 5000mm x 1800mm x 1600mm high.

Dean Smith and Grace 21 x 168 straight bed centre lathe, Serial No.35434-10-64. Swing over bed / saddle 571mm / 330mm (381mm guard removed), distance between centres 4267mm, hollow spindle 96.5mm diameter, spindle speeds 10 – 800 rpm, course pitch screw cutting at 8:1 ratio, 4 jaw chuck 600mm diameter, 2No 3 point fixed steadies and 1No roller type travelling steady, power drilling unit, hydraulic copying attachment, 4 way tool post, rapid traverse to saddle. Approx. dimensions 7000mm x 1500mm x 1400mm high.

Craven 1778mm x 7620mm (70 inch x 25 ft) straight bed centre lathe, Swing over bed / saddle 1778mm / 1524mm diameter, distance between centres 7620mm, spindle speeds 2 – 50 rpm, width over 2 shear bed 838mm, 4 jaw chuck 800mm diameter, twin saddles, 4 way tool post, 2No 3 point steadies 400mm and 838mm capacity. Main motor 25 HP, additional variable speed motor to give slow spindle speed range. Approx dimensions 10500mm (Bed splits to give sections 6000mm + 4500mm) x 2000mm x 2200mm high.

Richards model WH40, 4 inch spindle table type horizontal boring and drilling machine, Size of main table 1680mm x 1070mm, size of top table 1070mm x 1070mm, facing head 800mm diameter, spindle taper 50 int., cross traverse of table 2781mm, long travel of table 1752mm, vertical travel of head 952mm, spindle speeds 7 – 1250 rpm, feed rates 12mm – 1270mm per min., pendant control, Newall B60 3 axis DRO. Approx dimensions 7300mm x 3500mm x 3400mm high.

Kearns Richards Model SH75 table type horizontal boring and drilling machine, Serial No.6857. Spindle size 75mm diameter, spindle taper 40 int., Size of rotating table 1000mm x 1000mm, table loading 2030 kg, longitudinal traverse 1050mm, cross traverse 1050mm, vertical traverse 1050mm, spindle speeds 5.6 – 1120 rpm, facing head 500mm diameter, facing slide travel 180mm, pendant control, Newall Topaz 3 axis DRO. Screw cutting facility Approx dimensions 4400mm x 2300mm x 2900mm high.

Richards Model PRN25, 5 inch spindle table type horizontal boring and drilling machine, Spindle size 127mm diameter, size of main table 2220mm x 1220mm, size of top table 1530mm x 1530mm, facing head 1040mm diameter, spindle taper No.6 MT, longitudinal travel of table 2850mm, cross travel 1854mm, vertical travel of head 1880mm, spindle speeds 1.65 – 300 rpm, feed rates 0.25mm – 1.57mm / rev, screw cutting facility, pendant control. Approx dimensions 8000mm x 2900mm x 4000mm high.

Colchester Mascot 1600 x 60 inch gap bed centre lathe, Serial No.7/0004/07857. Swing over bed / cross slide 433mm / 267mm diameter, swing in gap 711mm diameter, spindle bore 76mm diameter, spindle speeds 20 – 1600 rpm, 3 and 4 jaw chucks, chuck guard, 3 point fixed and 2 point travelling steadies, quick change tool post with holders, coolant pump tank and fittings. Approx dimensions 3000mm x 1000mm x 1400mm high. Weight 2500 kgs.

Harrison M400 x 1000mm gap bed centre lathe, Serial No.403041-2674. Swing over bed / cross slide 400mm / 260mm diameter, swing in gap 610mm diameter, spindle bore 65mm diameter, spindle speeds 40 – 2000 rpm, 3 and 4 jaw chucks, chuck guard, key operated collet chuck, taper turning attachment, 5 position bed stop, 3 point fixed steady. Approx dimensions 2300mm x 1100mm x 1300mm high. Weight 2000 kgs.

Ajax model AJRH 1800 overhead ram type universal milling machine with motorised overarm and double angular swivel milling head (Huron Type), Serial No.30251B/45818. Size of swivel table 1800mm x 400mm, swivel movement 45

degrees, spindle speeds 28 – 1400 rpm, spindle taper 50 int., feeds 12 – 800mm /min, front operating hand wheel, backlash eliminator, knee support, 4 axis DRO, pendant control, arbor support bracket and arbor, Approx dimensions 2100mm x 2400mm x 2300mm high. Weight 5000 kgs.

Butler 21 inch slotting machine, Serial No.24605. Maximum stroke 530mm, minimum stroke 190mm, Cycles per minute 9,11,14,18,22 and 28, Ram adjustment 510mm, Table diameter 1140mm, floor to bed top 505mm, Approx dimensions 3350mm x 2390mm x 3960mm high. Weight 8500 kgs.

Marlco double sided hydraulic broaching press, Maximum daylight approx 700mm, distance between columns 600mm, bed area approx 600mm x 350mm, quantity of guide bushes and broaches. Approx dimensions 900mm x 800mm x 2250mm high.

Tai Pin model TPR 820 radial arm drilling machine, Serial No.7795 (Aug 1980). Drilling radius 900mm, spindle taper No.4 MT, spindle speeds 88 – 1500 rpm, power feed rates .15mm - .08mm /rev, loose box drilling table 500mm x 400mm x 400mm, spindle safety brake, coolant pump and fittings. Approx dimensions 1300mm x 700mm x 1900mm.

Mori Seiki model TL-5A Cnc Slant Bed Lathe With Fanuc 5T Cnc Control, Serial No.543 (MFD 1980). Swing over bed / saddle 600mm / 340mm diameter, distance between centres 1000mm, 3 jaw power chuck 300mm diameter, 6 station tool turret, quantity of tool holders, swarf conveyor. Approx dimensions 4500mm x 1500mm x 1700mm high.

Ward model 7DS capstan lathe with collet chuck and bar feed, Serial No WC4153. Swing over bed / saddle 420mm / 240mm diameter, maximum distance from collet chuck to turret face 740mm, spindle speeds 37 – 750 rpm, hollow spindle 57mm diameter, stroke of bar feed 620mm, quantity of collets and tool holders, 4 way tool post, coolant pump and fittings. Approx dimensions 3400mm x 1100mm x 1500mm high.

Eiga / Prvomajska turret milling machine, Table size 1100mm x 255mm, spindle taper 30 int., spindle speeds 70 -2300 rpm, power feed to table, swivel head. Approx . dimensions 1600mm x 1300mm x 2000mm high.

Ingersol Rand Model SSR M14 screw type air compressor with air receiver, capacity 230 litres. Approx usage 8000 hours, Approx dimensions 700mm x 500mm x 850mm high, size of receiver 450mm diameter x 1800mm high.

Butler 8ft x 3.5ft x 3.5ft double column planing machine, Serial No 12103, Table size 2438mm x 914mm, maximum distance between columns 1066mm, maximum height under bridge 1066mm, 2 No. toolboxes on cross rail, 2No. side tool boxes, twin vee bed ways. Approx dimensions 4100mm x 1900mm x 2700mm plus gen set 2100mm x 700mm x 700mm.

Elliott Progress No. 2G pillar drilling machine, Serial No 090856/373. Drilling capacity 22mm diameter, Table size 330mm x 330mm, spindle speeds 44 -3079 rpm, Jacobs drill chuck fitted.

Cincinnati No.2 tool and cutter grinding machine, Serial No.CK6112-21, Table size 1000mm x 130mm, magnetic chuck 250mm x 150mm, pair of work centres. Approx. dimensions 1400mm x 1200mm x 1300mm high.

Jones and Shipman double ended pedestal grinding machine, wheel size 355mm x 50mm.

Horace Green single ended tool lapping machine, wheel size 150mm diameter, table 250mm x 160mm.

No Name double ended pedestal grinding machine, wheel size 355mm x 50mm.

Hyster model S5.50XL 5 ton capacity counter balance diesel fork lift truck, Serial No D004D04238U MFD 1997, Load height 4050mm, forks 1500mm long, unladen weight 7430 kgs, usage 2200 hours. (LATE AVAILABILITY ON THIS ITEM. PLEASE CONTACT THE AUCTIONEERS FOR RELEASE DATE)

Clark model GPM15, 1000 kg capacity gas forklift truck, Serial No.M-265-2928 GEF7455, Lift height 3300mm, weight of truck 2405. Approx dimensions 2200mm x 1200mm x 1900mm high (LATE AVAILABILITY ON THIS ITEM. PLEASE CONTACT THE AUCTIONEERS FOR RELEASE DATE)

Salev Model H10, 1000kg capacity gas fork lift truck, Serial No.751147, Duplex mast, unladen weight 1900 kgs, lift height 3000mm, Approx. dimensions 1700mm x 1000mm x 1900mm high.

Worldwide Machinery Dealers – Large Heavy Duty Manual and CNC Machine Tools – Stockists of Machines – Factory Clearances

SN 598 **LUMSDEN 96ML SURFACE GRINDER**
Segmental wheel diameter 54" (1371 mm)
Segments per set 18
Table diameter & grinding capacity 100" (2540 mm)
Magnetic table dia. 100" (2540 mm)

S.N 561 **WALDRICH SIEGEN MODEL WSF 6 X 4500 TRAVELLING TABLE ROLL GRINDER**
Year 1978. Serial Number 12502. Maximum diameter over bed 750 mm. Maximum distance between centres 4,500 mm. Maximum weight of roll 6,000 kg.

EX 109 **TOPTURN SLANT BED CNC OIL COUNTRY LATHE 2009** Model: CNC S50.
1275 mm x 3000 mm. Spindle bore: 24" (610 mm).
Tailstock. Fanuc Oi-TC. 500 Hours.

SN 404 **SCHMALTZ R.68/3000 CYLINDRICAL GRINDING MACHINE**
Year of manufacture: 1975. Centre height: 410 mm. Distance between centres: 3000 mm. Max. dia. ground with new wheel: 680 mm. Max. dia. ground with worn wheel: 800 mm.

S.N 327
WEBSTER & BENNETT EM 84" VERTICAL BORER WITH ELEVATING RAIL Table size 84" (2134 mm)
Swing 84" (2134 mm)

EX 103
HAAS SL-30 CNC LATHE MODEL TCE (2001)
Low Hours. Parts Catcher. Swarf Conveyor.

Supplying all types of machine tools around the world!!!

Established in 1995, and, having grown considerably since its inception, now operates from its 20,000 ft² warehouse with 30ton Lifting Capacity located at the heart of Sheffield, South Yorkshire, England

We specialise in medium to large machine tools, both manual and CNC, including Deep Hole Boring Machines, Roll Grinding Machines, Large Lathes, Vertical and Horizontal Borers.

We are constantly looking to purchase machine tools of all types.

Dry machinery storage available with competitive rates, machinery advertisement and disposal on commissioned based sale

WANTED: SURPLUS MACHINERY

Due to increased demand and as the Global Market Leader we are looking for Machinery and Equipment. Through our unique exchange sales and expanding end user markets, we have an actively growing database of buyers for all forms of industrial equipment:

- CNC & Conventional Machine Tools
- Fabrication and Sheet Metal
- Pressing and Forming
- Inspection and Analysis
- Gear Cutting
- Aerospace & Automotive
- Plastics
- Materials Handling, Storage & Support Equipment

We can offer unique sales opportunities for single items up to entire plants. Our in-house industry experts will work with you to best maximise the sale of your asset(s).

GoIndustry DoveBid being the unrivalled industry specialist in the re-sale of industrial equipment offer:

- Range of commission and incentivised sales options.
- Cash. If required we can purchase your assets outright
- Detailed accurate valuations
- Regular Exchange Sales
- Short timescale turnaround
- Bespoke industry specific sales
- Active worldwide sales force
- Building Clearances
- Logistics
- Inter Company Transfer

We need your equipment now.

For a review of your surplus equipment and discussion on how to turn it into cash today contact:

Agie Elox Mondo 30 EDM Die Sinking Machine

Serial No M30 W/DA-000029, MFD 1995, Capacities, Nominal work piece dimensions width 760mm, length 650mm, height 305mm, Work tank internal dimensions width 1010mm, length 725mm, height 370mm, Work table dimensions width 650mm, depth 510mm, Traversing path X axis 350mm, Y axis 300mm, Z axis 250mm, Throat clearance 520mm.

Agie Elox Mondo 20 EDM Die Sinking Machine

Serial No Mon20-F-002043, MFD 1996, Capacities Nominal work piece dimensions width 630mm, length 380mm, height 165mm, Work tank internal dimensions width 630mm, length 460mm, height 230mm, Work table dimensions width 400mm, depth 300mm, Traversing path X axis 300mm, Y axis 250mm, Z axis 250mm.

Hoffler H1000 Gear Grinder

MODEL H-1000 GEAR GRINDER
TYPE: H 1000 MFD: 1987
MACHINE REWORKED BY THE FOLLOWING COMPANY WEKO IN 1999 TO OBTAIN DIN 4 STANDARDS RESULTS OF GROUND GEARS CAN BE SUPPLIED.

Favretto CNC Horizontal Spindle Surface Grinder

Favretto Hydraulic Cnc Horizontal Spindle Surface Grinder Type: MA60 Serial No: 03804 Mfd: 1997 Control: Favretto Easy Cnc Capacities: Working Surface Of Table: 1000 x 300mm Magnetic Chuck Size: 600 x 300mm close pole electromagnetic Wheel Dimensions: 350 x 127 x 50mm Wheel Speed: 1400rpm.

Colchester Triumph Gap Bed Centre Lathe, Model VS2500

Serial No LVT50G1RJA/04706, swing over bed 400mm, swing over cross slide 246mm, swing in gap 585 x 165mm, max distance between centres 1250mm, spindle speeds variable in 3 ranges 14 - 275, 40 - 795, 125 - 2500rpm, feeds sliding 0.036 - 1.2mm/rev, surfacing 0.018 - 0.6mm/rev.

Loin Vertical Turret Mill

Model 2VS, Serial No 0393, MFD 2001, table size 1065mm x 230mm, long traverse 650mm, cross traverse 324mm, vertical traverse 380mm, quill traverse 100mm, max spindle to table 455mm, min spindle to table 75mm, centralised lubrication system, coolant with splash tray, table guarding.

GLEASON No.726 STRAIGHT BEVEL REVACYLE GEAR GENERATOR
Serial No. 765701. Max Root angle 55Deg, Max Outside Diameter 6", Max Depth using 21" Cutter 0.585", Main Motor 10HP, Hydraulic Chucking, Cutter Body with Chamfer unit Fitted.

GLEASON - GOULDER CSF/2 SINGLE FLANK TESTER.
Serial No.87154, Max diameter of gear over slideway 22", Max distance between spindles 16.75", Max distance between spindle and tailstock 23.875", Swivel of spindles 0 or 90degs, Mark IV Electronic console with graph recorder Serial No.033

Stock List March 2011

LATHES ALL TYPES

MYFORD ML7 Centre lathe Swing 5" x 20" with tooling£1750
 MAXIMAT V10 Model makers Lathe, Swing 10" x 30" b.c mounted on bench.....£POA
 HARRISON M300 Gap bed centre lathe Swing 330 x 1000mm b.c.....£2950
 HARRISON M300 Gap bed centre lathe Swing 330 x 1000mm b.c. single phase C/w tooling.....£2950
 HARRISON M400 Gap bed centre lathe, Swing 420mm x 1500mm b.c. C/w tooling£POA
 BOXFORD 280 Centre lathe, swing 280mm x 635mm b.c. Choice from£1450
 COLCHESTER STUDENT 1800 Swing 335mm x 1000mm b.c.....Choice From £3450
 COLCHESTER MASCOT 1600 Gap bed centre lathe, swing 433mm x 1000mm, c/w 3/ 4jaw chuck.....£POA
 DEAN SMITH & GRACE 1709 x 40, Swing 17" x 40" b.c.....£3650
 MOSTANA 1M63 Heavy duty Lathe Swing 650mm x 3000mm b.c. C/w 3/ 4jaw chuck, 2 fixed steadies & DRO£POA
 PRIMERO PL-3080 CNC LATHE with Fagor control, Swing 770 mm x 2000 mm b.c. New 2006 VGC.....£POA
 WARD 8 Combination Turret Lathe, Long bed machine with collet chuck£POA

DRILLING & TAPPING MACHINES

ARCHDALE ELEVATING TABLE RADIAL ARM DRILL, Arm length 36", 2mt spindle£2750
 KITCHEN & WALKER E5 7ft 6" radial arm drill.....£POA
 KITCHEN & WALKER E3 6FT Radial Arm drill 5mt spindle.....£POA
 KITCHEN & WALKER E2 4FT Radial arm drill with insta Brake and box table.....£POA
 RICHMOND ENVOY 4' 6" Radial arm drill, 5mt Spindle, box table and safety brake.....£5250

EXCEL 3S Mini Radial Drill arm, 550mm arm, 3mt Spindle, Speeds 155 - 1355Rpm.....£1150
 MEDDINGS LF5S 1/2" cap Pillar Drill£200
 MEDDINGS S32 Pillar Drill, 3mt spindle with power feeds, speeds 70 - 1460rpm.....£850
 QDM 1250 PILLAR DRILL, 3mt spindle, powered down feed£POA
 FOBCO 10/8 PILLAR DRILL Drilling capacity 1 1/4" dia£POA
 AJAX AJ40 Heavy duty pedestal Drilling machine, drilling capacity 40mm, power feeds. VGC.....£1950
 HULLER UG -16 Tapping machine£POA

BORING MACHINES

KEARNS RICHARDS SF125 Horizontal boring & facing Machine, Sp dia 125, Facing head cap up to 1200mm, Table 1500 x 1500mm. C/w Universal milling head.....£POA

MILLING MACHINES

HURON KU4 Universal Mill table 1600 x 460mm Long travel 1250mm, 50int spindle C/w DRO£3750
 HURON KU5 Universal Miller, Table 1600 x 460mm, C/w DRO & tooling. Choice of two£POA
 AJAX AJT 1 TURRET MILL, table size 1270 x 254mm, long travel 720mm, speeds 45 - 3500rpm. Ex University.....£POA
 PARKSON M1200 Universal miller, Table size 49" x 12"£4950
 MOSTANA 6T 13 SWIVEL HEAD VERTICAL MILL, Table 1600 x 400mm, Spindle size 50INT, Knee has been Rebuilt£4950
 BRIDGEPORT Series 1 2hp Turret Mill with vari speed head, Table 49" x 9" Choice from£3950
 XYZ KRV 2000 TURRET MILL, Table size 1270mm x 254mm, from£2950
 XYZ KRV PRO 2000 TURRET MILL, with Proto-trak MX 3 CNC control, Table size 1270mm x 254mm£3950
 XYZ KRV PRO 3000 CNC turret mill with Proto-trak MX2 control Table 1371mm x 305mm.....£POA

XYZ DPM 4000 Bed Mill with Proto-trak A.G.E 3, table 1475 x 355mm, 40ISO Spindle£POA

GRINDING MACHINES

JONES & SHIPMAN 540 HORIZONTAL SURFACE GRINDER, Magnetic chuck 18" x 6", Good condition, Choice£3950
 JONES & SHIPMAN 1400 LAR, mag chuck 24" x 8" C/w coolant, Choice from£6950
 JONES & SHIPMAN 1300 Universal Grinder, Swing 10" x 27" b.c. C/w some tooling and coolant.....£POA
 JONES & SHIPMAN 1302 universal Grinder Swing 14" x 27" b.c. C/w tooling internal spindle Etc.....£POA
 JONES & SHIPMAN 1600 CONE LAPPING MACHINE, Max length 40", Spindle to column 6 1/2" Spindle feed 2", New 1998 as new condition.....£2850
 SNOW V1500 x 400 Vertical spindle Segmental Wheel surface grinder to be RECONDITIONED.....£12500
 RJH BISON DOUBLE END GRINDER 10" WHEEL£650

GEAR CUTTING, SLOTTING, SHAPING, MISCELLANEOUS

ONE 40INT NEW HEAVY DUTY VERTICAL SWIVEL MILLING HEAD suitable for conversion.....£POA
 BUTLER 12" TOOLROOM SLOTTER£6750
 ROTHLEY 8" SLOTTER, Table dia 15", swivel head.....£2450
 RT200 Manipulator 450mm dia powered.....£POA

HONING MACHINES

DELAPENA Model 276/430 Honing machine£POA

FABRICATING, SAWS, PRESSES, TOOLING ETC.

MORGAN RUSHWORTH GUILLOTINE Capacity 1500 x 3.5mm, New 2001.....£POA
 HARRE 5BS Hydraulic Press 7ton capacity£POA
 AMADA AM250 Automatic Horizontal bandsaw, 250mm capacity£POA
 STARTRITE H280 MV Horizontal bandsaw, 250mm capacity.....£POA

SAHINLER BMS 330 Automatic Bandsaw, 330mm capacity£POA
 SELSON BESCO BOX & PAN FOLDER, 1000mm x 1.6mm.....£1250
 KINGSLAND 115P/625 single ended punch m/c 115tn cap. C/w tooling£POA
 HACO PPB30-135 PRESS BRAKE, Capacity 3000 x 135tn£14250
 KEETONA ROLLS 950mm Capacity£POA
 MORGAN RUSHWORTH ROLLS 500mm Capacity.....£POA
 PEDRAZZOLI Perris 350 IBP Pull down saw with rotary table, Blade size 350mm. Suitable for aluminium & light alloys, pneumatic vice£1450
 MEP COBRA pull down saw on base.....£800
 PROSAW MEGA BS250 HAS Automatic Horizontal bandsaw 250mm capacity.....£2950
 ADDISON CB250A Automatic Bandsaw, Capacity 250mm£POA
 CINCINNATI MILCRON GH 30ton Press with adjustable stroke£2250
 PROSAW MEGA H400A Twin Column Automatic Horizontal Bandsaw, 400mm capacity. Swarf conveyor and bundle clamping new 1997£POA
 FLY PRESSES various sizes'£350

WOOD WORKING MACHINERY

WADKIN Bursgreen Wood Turning lathe.....£POA
 UNION 12" Disc Sander.....£POA
 UNION Double ended polisher£POA

QUALIMACH

Qualimach offer the
“One Stop – Complete Machinery Service”

**Specialists in Plate & Section Rolls,
 Including CNC Control – Ex Stock.**

**Specialists in Metalforming, Press Brakes
 & Guillotine Shears – Ex Stock.**

**QUALIMACH ESTABLISHED IN 1981 ONE OF THE LARGEST
 MACHINERY DEALERS IN THE UK. 30,000 sq.ft.
 WAREHOUSE WITH 40 TON OVERHEAD CRANE CAPACITY.**

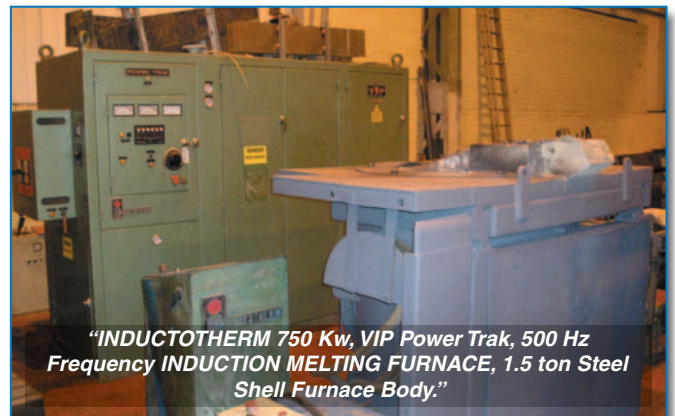

Large Stocks of :-

- Plate Bending Rolls.
- Section Bending Rolls.
- Press Brakes.
- Guillotine Shears.
- Universal Steelworkers.
- CNC Punching Machines.
- Hydraulic & Mechanical Presses.
- Sawing Machines.
- Corner Notching Machines.
- Sheet Metal Machinery.
- Machine Tools.
- Induction Melting Furnaces.
- Moulding Lines.
- Shot Blast Machines.
- Laboratory Test Machines.
- General Foundry Plant.

**“BEKA-MAK BMSY 650DG NC, 1000 mm x 650 mm cap.
 SEMI AUTOMATIC, DOUBLE COLUMN, HORIZONTAL,
 MITRE CUTTING BAND SAW.”**

**Example of Late Used Stock Fabrication,
 Metalworking Machines.**

**“INDUCTOTHERM 750 Kw, VIP Power Trak, 500 Hz
 Frequency INDUCTION MELTING FURNACE, 1.5 ton Steel
 Shell Furnace Body.”**

**Example of Extensive Stocks of INDUCTOTHERM
 Induction Melting Furnaces & Foundry Plant.**

As one of the most respected dealers in the UK we supply machines of all types from pillar drills to 5 axis machining centres, costing hundreds of thousands of pounds. The machines shown below are indicative of our normal stock.

Overseas markets - using our knowledge of machinery we have been able to supply machines to both users and dealers throughout the world. We have built up a wealth of experience, which we can bring into play for our overseas clients

Having gained an excellent reputation through our professional approach we continue to work hard to protect and enhance our standing and look forward to doing business with your company

For the collection and delivery of our machines we have recently purchased a new crane lorry with the ability to lift machines weighing up to 11,300kg.

We are the official used machine dealer for XYZ Machine Tools a variety of which are always in stock.

Please use our website, which is updated daily. To check our current stock visit: www.stevenmooneymachinery.co.uk

MACHINERY CLASSIFIED

THE INDUSTRY'S NO. 1 PRODUCTION EQUIPMENT JOURNAL

OFFICIAL PUBLISHING PARTNER OF THE EAMTM BRITISH BRANCH

Designed by engineers for engineers, Machinery Classified has proved, since its launch in 1982 to be an easy to use, much relied on, source of information for the machine tool industry. Established and trusted, Machinery Classified is the official publishing partner of the European Association of Machine Tool Merchants British Branch and can offer you full and tailored coverage of the machine tool using market.

Machinery Classified continuously researches your market, maintaining a unique database of over 30,000 UK manufacturing sites so we can identify those that use machine tools. We have information on company size, the products manufactured, the types and numbers of machine tools used on each site as well as details of personnel working there.

This allows us to direct our publication accurately to key people by name and job responsibility, through this level of unique data we target our magazine precisely to help you market your machines efficiently to machine tool buyers.
