Welcome Message

Dear Friends and Colleagues

We are very pleased to invite you to the first London Breast Meeting scheduled from the 4th to 6th of September 2014.

As you may know, London is a vibrant and exciting city, comprised of a variety of cultural, academic and scientific points of interest both new and old.

In aesthetic and reconstructive breast surgery we are continuously facing both controversy and technical advances, making this area of plastic surgery highly complex and fascinating. However, from the range of perspectives on the discipline, we can all learn the skills that will help us to progress and push the field further. We have invited keynote speakers from around the world to debate their position on current hot topics through face to face debates and to share their technical expertise in a video session. Attendees are also invited to present a challenging case, with a prize being awarded by the audience for the most innovative solution and result.

We hope you will join us in London to share your knowledge and experience with the faculty.

Jian Farhadi MD PD

Director Department of Plastic & Reconstructive Surgery,
Guy's and St Thomas' Hospital, London.
