Welcome Message

Dear friends and colleagues

We are very pleased to invite you to the second London Breast Meeting, scheduled for the 4th to 5th September 2015. The inaugural London Breast Meeting in September 2014 was a huge success with more than 35 international faculty members and over 320 delegates.

This 2 day CPD certified meeting will be focused mainly on the practical aspects of aesthetic and reconstructive breast surgery with tips, tricks and pearls, whilst the scientific aspects were explored at the Barcelona Breast Meeting in March 2015.

We will continue with the format of pre-recorded video sessions and open panel discussions. The faculty will present different techniques for the same procedure. New sessions will be introduced, such as an interview of an expert by other experts on a particular technique, offering the audience the opportunity to ask detailed technical questions. The experts will also share changes and innovations in their practice over the past year.

Once again, attendees are invited to present a challenging case with an innovative solution, and the winner nominated by the audience will be awarded a prize.

London is a vibrant and exciting city, comprised of a variety of cultural, academic and scientific points of interest, both new and old.

We hope you will join us in London to share your knowledge and experience.
